We received an update letter from House Oversight and Reform regarding the Administrator's previous employment activities—specifically Darling Ingredients. This is a follow up from a 2/13 letter the Committee sent EPA, which we responded to on 3/6. All previous letters are attached with the update letter and the enclosure with redacted invoices the Committee references in the letter. The letter notes that we have until 4/30 to indicate “whether you intend to comply with this request voluntarily or whether compulsory means will be necessary.”

Let Joe or I know if you have any questions prior to the meeting.

Congress of the United States

House of Representatives

COMMITTEE ON OVERSIGHT AND REFORM

2157 RAYBURN HOUSE OFFICE BUILDING

WASHINGTON, DC 20515-6143

Mailings: (202) 225-3061
Mailing: (202) 225-3074

<http://www.opa.house.gov>

April 23, 2019

The Honorable Andrew R. Wheeler
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, D.C. 20460

Dear Administrator Wheeler:

The Committee is investigating your compliance with the Ethics in Government Act, your decision to withhold documents requested by the Committee several months ago regarding your potential conflicts of interest, and new documents obtained by the Committee that appear to show that you omitted a former lobbying client from your public financial disclosure report.

The Ethics in Government Act requires federal officials to disclose the source of any compensation greater than \$5,000 in any of the two calendar years prior to the reporting year and to provide "a brief description of the nature of the duties performed or services rendered by the reporting individual for each such source."¹ Under this statute, a federal official who has "worked on a matter involving a client" must disclose the name of that client "if the value of the services rendered by the nominee exceeded \$5,000."² Guidance by the Office of Government Ethics instructs officials to take the following actions:

Report any source that paid more than \$5,000 for your personal services in any calendar year during the reporting period, which covers the preceding two calendar years and the current calendar year up to the date of filing.

Report such payments both from employers and from any clients to whom you personally provided services. You must report a source even if the source made its payment to your employer and not to you.³

¹ 5 U.S.C. app. § 102(a)(6).

² 5 C.F.R. § 2634.308 (2006).

³ Office of Government Ethics, *Public Financial Disclosure Guide* (online at [www.oge.gov/Web/278eGuide.nsf/Chapters/Your%20Sources%20of%20Compensation%20Exceeding%20\\$5,000%20in%20a%20Year%20\(Nominee%20and%20New%20Entrant%20Reports%20Only\)?opendocument](http://www.oge.gov/Web/278eGuide.nsf/Chapters/Your%20Sources%20of%20Compensation%20Exceeding%20$5,000%20in%20a%20Year%20(Nominee%20and%20New%20Entrant%20Reports%20Only)?opendocument)).

On August 12, 2017, you submitted your financial disclosure report to the Office of Government Ethics for the period between January 1, 2015, to August 12, 2017.⁴ You did not report Darling Ingredients as a source of compensation.

Your financial disclosure report was inconsistent with lobbying disclosure reports filed by your former employer, Faegre Baker Daniels Consulting (Faegre). According to quarterly disclosure reports filed by Faegre, you engaged in lobbying activities on behalf of Darling from April 1, 2015, to May 31, 2016.⁵ These reports, filed throughout 2015 and 2016, indicate that Darling paid \$270,000 to Faegre for the lobbying services provided by you and two other employees at the firm during this period.⁶

To investigate this discrepancy, on February 13, 2019, the Committee requested that you produce documents showing your total compensation for lobbying activities conducted on behalf of Darling from January 1, 2015, to August 12, 2017.⁷

On March 6, 2019, Troy Lyons, an Associate Administrator at the Environmental Protection Agency (EPA), responded to the Committee by claiming that your participation in a meeting with Darling on June 26, 2018, “did not violate Executive Order 13770.” However, his response did not address whether you complied with the Ethics in Government Act. To date, you have failed to comply with the Committee’s requests for documents, including documents relating to your compensation from Darling.⁸

New documents obtained by the Committee from Darling show that the company paid at least \$5,327 for your services over many months throughout the course of 2015, including \$3,052.50 in February for 5.5 hours of services, \$888 in March for 1.6 hours of services, and \$1,387.50 for 2.5 hours of services in May. The documents show that you also provided 3.5 hours of services to Darling in August of 2015. If your services in August were provided at the same hourly rate as the services provided in the prior months of 2015, the total value of the services you provided to Darling in 2015 would have been at least \$7,270.

⁴ Andrew Wheeler, *Executive Branch Personnel Public Financial Disclosure Report* (Aug. 12, 2017) (online at www.documentcloud.org/documents/4387529-Andrew-Wheeler-Financial-Disclosure.html).

⁵ FaegreBD Consulting, *Second Quarter 2015 to Second Quarter 2016 Lobbying Disclosure Reports on Behalf of Darling International* (online at <https://bit.ly/2TKV8j4>) (accessed Feb. 12, 2019).

⁶ *Id.*

⁷ Letter from Chairman Elijah E. Cummings, Committee on Oversight and Reform, and Chairman Harley Rouda, Subcommittee on Environment, Committee on Oversight and Reform, to Acting Administrator Andrew Wheeler, Environmental Protection Agency (Feb. 13, 2019) (online at <https://oversight.house.gov/sites/democrats.oversight.house.gov/files/2019-02-13.BEC%20Rouda%20to%20Wheeler.pdf>).

⁸ Letter from Associate Administrator Troy M. Lyons, Environmental Protection Agency, to Chairman Elijah E. Cummings, Committee on Oversight and Reform (Mar. 6, 2019) (online at <https://oversight.house.gov/sites/democrats.oversight.house.gov/files/EPA.03062019%20Response%20to%20EEC%20Rouda%20re%20Wheeler%20Lobbying.pdf>).

These documents indicate that you may have improperly omitted Darling from your financial disclosure, and they raise concerns that you may have failed to identify other clients who paid for your services as a lobbyist during the period covered by your disclosure report.

For these reasons, the Committee requests that you produce all of the documents previously requested by the Committee on February 13, 2019. Please inform the Committee by April 30, 2019, whether you intend to comply with this request voluntarily or whether compulsory means will be necessary.

In addition, the Committee requests a staff briefing by May 3, 2019, to answer the following questions:

1. Why did you exclude Darling Ingredients from the list of your sources of compensation in your public financial disclosure report filed on August 12, 2017?
2. What process did you use to identify the sources of your compensation as a lobbyist at Faegre?
3. Have you provided a full list of your former clients to the designated agency ethics official for EPA?
4. Did the designated agency ethics official for EPA approve of your decision not to include Darling in your financial disclosure report?
5. From which matters have you recused yourself in your role as Deputy Administrator of EPA?
6. Which matters have you recused yourself from in your role as Administrator of EPA?

The Committee on Oversight and Reform is the principal oversight committee of the House of Representatives and has broad authority to investigate "any matter" at "any time" under House Rule X.

The Honorable Andrew R. Wheeler
Page 4

An attachment to this letter provides additional instructions for responding to this request.
If you have any questions, please contact Committee staff at (202) 225-5051.

Sincerely,

Elijah E. Cummings
Chairman

Harley Rouda
Chairman
Subcommittee on Environment

Enclosure

cc: The Honorable Jim Jordan, Ranking Member

The Honorable James Comer, Ranking Member
Subcommittee on Environment

Responding to Oversight Committee Document Requests

1. In complying with this request, produce all responsive documents that are in your possession, custody, or control, whether held by you or your past or present agents, employees, and representatives acting on your behalf. Produce all documents that you have a legal right to obtain, that you have a right to copy, or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party.
2. Requested documents, and all documents reasonably related to the requested documents, should not be destroyed, altered, removed, transferred, or otherwise made inaccessible to the Committee.
3. In the event that any entity, organization, or individual denoted in this request is or has been known by any name other than that herein denoted, the request shall be read also to include that alternative identification.
4. The Committee's preference is to receive documents in electronic form (i.e., CD, memory stick, thumb drive, or secure file transfer) in lieu of paper productions.
5. Documents produced in electronic format should be organized, identified, and indexed electronically.
6. Electronic document productions should be prepared according to the following standards:
 - a. The production should consist of single page Tagged Image File ("TIF"), files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
 - b. Document numbers in the load file should match document Bates numbers and TIF file names.
 - c. If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.
 - d. All electronic documents produced to the Committee should include the following fields of metadata specific to each document, and no modifications should be made to the original metadata:

BEGDOC, ENDDOC, TEXT, BEGATTACH, ENDATTACH, PAGECOUNT, CUSTODIAN, RECORDTYPE, DATE, TIME, SENTDATE, SENTTIME, BEGINDATE, BEGINTIME, ENDDATE, ENDTIME, AUTHOR, FROM, CC, TO, BCC, SUBJECT, TITLE, FILENAME, FILEEXT, FILESIZE, DATECREATED, TIMECREATED, DATELASTMOD, TIMELASTMOD,

INTMSGID, INTMSGHEADER, NATIVELINK, INTFILPATH, EXCEPTION,
BEGATTACH.

7. Documents produced to the Committee should include an index describing the contents of the production. To the extent more than one CD, hard drive, memory stick, thumb drive, zip file, box, or folder is produced, each should contain an index describing its contents.
8. Documents produced in response to this request shall be produced together with copies of file labels, dividers, or identifying markers with which they were associated when the request was served.
9. When you produce documents, you should identify the paragraph(s) or request(s) in the Committee's letter to which the documents respond.
10. The fact that any other person or entity also possesses non-identical or identical copies of the same documents shall not be a basis to withhold any information.
11. The pendency of or potential for litigation shall not be a basis to withhold any information.
12. In accordance with 5 U.S.C. § 552(d), the Freedom of Information Act (FOIA) and any statutory exemptions to FOIA shall not be a basis for withholding any information.
13. Pursuant to 5 U.S.C. § 552a(b)(9), the Privacy Act shall not be a basis for withholding information.
14. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
15. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) every privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author, addressee, and any other recipient(s); (e) the relationship of the author and addressee to each other; and (f) the basis for the privilege(s) asserted.
16. If any document responsive to this request was, but no longer is, in your possession, custody, or control, identify the document (by date, author, subject, and recipients), and explain the circumstances under which the document ceased to be in your possession, custody, or control.
17. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, produce all documents that would be responsive as if the date or other descriptive detail were correct.

18. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data, or information not produced because it has not been located or discovered by the return date shall be produced immediately upon subsequent location or discovery.
19. All documents shall be Bates-stamped sequentially and produced sequentially.
20. Two sets of each production shall be delivered, one set to the Majority Staff and one set to the Minority Staff. When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2105 of the Rayburn House Office Building.
21. Upon completion of the production, submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control that reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.

Definitions

1. The term “document” means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, data, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, communications, electronic mail (email), contracts, cables, notations of any type of conversation, telephone call, meeting or other inter-office or intra-office communication, bulletins, printed matter, computer printouts, teletypes, invoices, transcripts, diaries, analyses, returns, summaries, minutes, bills, accounts, estimates, projections, comparisons, messages, correspondence, press releases, circulars, financial statements, reviews, opinions, offers, studies and investigations, questionnaires and surveys, and work sheets (and all drafts, preliminary versions, alterations, modifications, revisions, changes, and amendments of any of the foregoing, as well as any attachments or appendices thereto), and graphic or oral records or representations of any kind (including without limitation, photographs, charts, graphs, microfiche, microfilm, videotape, recordings and motion pictures), and electronic, mechanical, and electric records or representations of any kind (including, without limitation, tapes, cassettes, disks, and recordings) and other written, printed, typed, or other graphic or recorded matter of any kind or nature, however produced or reproduced, and whether preserved in writing, film, tape, disk, videotape, or otherwise. A document bearing any notation not a part of the original text is to be considered a separate document. A draft or non-identical copy is a separate document within the meaning of this term.
2. The term “communication” means each manner or means of disclosure or exchange of information, regardless of means utilized, whether oral, electronic, by document or otherwise, and whether in a meeting, by telephone, facsimile, mail, releases, electronic

message including email (desktop or mobile device), text message, instant message, MMS or SMS message, message application, or otherwise.

3. The terms “and” and “or” shall be construed broadly and either conjunctively or disjunctively to bring within the scope of this request any information that might otherwise be construed to be outside its scope. The singular includes plural number, and vice versa. The masculine includes the feminine and neutral genders.
4. The term “including” shall be construed broadly to mean “including, but not limited to.”
5. The term “Company” means the named legal entity as well as any units, firms, partnerships, associations, corporations, limited liability companies, trusts, subsidiaries, affiliates, divisions, departments, branches, joint ventures, proprietorships, syndicates, or other legal, business or government entities over which the named legal entity exercises control or in which the named entity has any ownership whatsoever.
6. The term “identify,” when used in a question about individuals, means to provide the following information: (a) the individual’s complete name and title; (b) the individual’s business or personal address and phone number; and (c) any and all known aliases.
7. The term “related to” or “referring or relating to,” with respect to any given subject, means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is pertinent to that subject in any manner whatsoever.
8. The term “employee” means any past or present agent, borrowed employee, casual employee, consultant, contractor, de facto employee, detailee, fellow, independent contractor, intern, joint adventurer, loaned employee, officer, part-time employee, permanent employee, provisional employee, special government employee, subcontractor, or any other type of service provider.
9. The term “individual” means all natural persons and all persons or entities acting on their behalf.

Appointment

From: Adm15Wheeler.Calendar [Adm15Wheeler.Calendar@epa.gov]
Sent: 4/12/2019 8:00:30 PM
To: Adm15Wheeler.Calendar [Adm15Wheeler.Calendar@epa.gov]; Jackson, Ryan [jackson.ryan@epa.gov]; Wehrum, Bill [Wehrum.Bill@epa.gov]; Harlow, David [harlow.david@epa.gov]
Subject: Call with Susan Dio, David Lawler, Joe Ellis, Sam Knaizer and Jim Nolan (BP America)
Attachments: EPA Meeting Request Form - Wheeler Dio.docx
Location: Administrator's office Ex. 6
Start: 4/18/2019 8:00:00 PM
End: 4/18/2019 8:30:00 PM
Show Time As: Busy

The BP attendees will be:

- Susan Dio, Chairman and President of BP America
- David Lawler, CEO US Lower 48 Onshore
- Joe Ellis, VP and Head of US Government Affairs
- Jim Nolan, Senior Director, HSE Advocacy and Policy
- Sam Knaizer

**ADMINISTRATOR ANDREW WHEELER
MEETING REQUEST FORM
U.S. Environmental Protection Agency**

Today's Date: April 8, 2019

Proposed Meeting Date and Time: April 15, 2019 after 1:00 pm
or
April 18, 2019 after 1:00 pm

Requesting Individual / Affiliation: James A. Nolan, Jr. BP America

Location of meeting: EPA

Is the Above Date Flexible? Either April the 15th or 18th after 1:00 will work.

Purpose of the Meeting To discuss whether EPA will continue to directly regulate methane.

Does the topic of the meeting include any area under litigation? If so, name the litigation. While we do not intend to discuss litigation, we understand there is a pending lawsuit that seeks to compel EPA to promulgate an existing source rule for the oil and gas sector. BP America is not a party to this litigation. See, State of New York v. Pruitt, Dist. Court, DC, Index No. 1:18-cv-773.

Role of the Administrator: Meeting participant

List all attendees and their affiliation: Susan Dio, Chairman and President of BP America
Joe Ellis, VP and Head of US Government Affairs, BP America
Robert Stout, VP and Head of Regulatory Affairs, BP America

Requestor(s)' Relationship to EPA: Regulated entity

Does the organizer/host personally know the Administrator? If so, what is the nature of the relationship and its length? No.

Has the organizer/host met previously with the Administrator? If so, which dates? Susan Dio has met once with the Administrator when he was the Deputy Administrator. That meeting occurred on August 27, 2018.

**ADMINISTRATOR ANDREW WHEELER

Change to in Alex's quote:

Ex. 5 - Deliberative Process

For your press calls or inquires, it's very important to point out that TSCA evaluation results in EPA having to propose a regulation. Under TSCA if EPA finds unreasonable risk, it has to regulate it. Regulation can be anything from a ban to restricted uses to something much simpler, but that's the result of TSCA. IRIS evaluation doesn't result in regulation at all. In fact, the National Academies of Science has critized EPA for it's IRIS assessments of formaldehyde twice in 2011 and 2014. Congress passed appropriations language in 2015 directing EPA to implement NAS' recommendations and directed NAS to review what EPA had done to ensure it was actually done. NAS criticized EPA in 2011 for a lack of transparency in the IRIS process and lack of timeliness in its products. The March 6, GAO report Senator Carper asked for and uses also highlights the long history on this issue as well. This is in no way been a shining moment for EPA and in fact for a number of years.

Matt, David and Justin-

Do you all mind taking a quick look at our entire Ag Day Report? Brittany + program politicals (Susan, Nancy, Dave R, Anna, Owen, David D, Lee, Cook, Clint have taken a look already. It touches basically everything each program has done

for ag. OPA will do a second final review after OGC(if received back by 4 PM) and send to multi media afterwards which takes a few hours. The goal is to link online tomorrow AM.

Do you all mind looking ASAP? FYI David you already saw part of this. Apologies for the late nature of the request.

Thanks RJ. FYI on the hazardous materials designation- industry hates it. They think Congress should not be making that determination especially since the health effects have not been established; sets a bad precedent; etc. They want to basically leave that up to the science that the agencies use. I have attached language that we (and maybe EPW) are reviewing and would like to know EPA's thoughts.

Also, has EPA seen the 115th Stabenow bill re PFAS? We're (personal office) contemplating a letter to EPA (or just a request for TA..?) on it to see if there is any utility to the bill for EPA. My understanding is that it is a detection only bill and would not identify type of or quantity of PFAS. Not sure that would be helpful, seems more like it could just be used to stoke fears. But there is thought to making changes that will provide more information for EPA that could be beneficial. Might be better for us to do a letter so that we have an official response that provides answers to specific questions.

I wanted you to see this as well. Today we released guidance on which we are taking comment on addressing PFOA and PFOS in groundwater when it's a drinking water source. This was a document cleared by OMB meaning that all federal agencies with a stake in the issue had an opportunity to be involved and negotiate the language in the document including DOD. This is that latest element, as well, under EPA's PFAS Action Plan. However, I wanted you to know about the development specifically as it related to the work you're doing. I don't believe this changes the TA we have sent, but happy to work with you on it further.

EPA Takes Important Step Under PFAS Action Plan

Agency asks for public input on Draft Interim Recommendations for Addressing Groundwater Contaminated with PFOA and PFOS

WASHINGTON (APRIL 25, 2019) — Today, the U.S. Environmental Protection Agency (EPA) released draft interim guidance for addressing groundwater contaminated with perfluorooctanoic acid (PFOA) and/or perfluorooctane sulfonate (PFOS) for public review and comment. This is a key component of the agency's PFAS Action Plan. These draft recommendations will help protect human health in communities across the country by providing clear and consistent guidance on addressing PFOA and PFOS in groundwater under

federal cleanup programs. This information has been requested by other federal agencies and the states and could be used by other federal, state and tribal cleanup programs.

“Today, we are delivering on one of our most important commitments under the PFAS Action Plan,” said **EPA Administrator Andrew Wheeler**. “This interim guidance will support actions to protect the health of communities impacted by groundwater that contains PFOA and PFOS above the 70 parts per trillion level, and is a potential source of drinking water. This is a critical tool for our state, tribal, and local partners to use to address these chemicals.”

EPA developed this guidance based on the agency’s current scientific understanding of PFAS toxicity, including the agency’s PFOA and PFOS health advisories. The recommendations may be revised as new information becomes available.

EPA has opened a docket for a 45-day public comment period. The draft guidance describes EPA’s interim recommendations for screening levels and preliminary remediation goals (PRGs) to inform final cleanup levels for PFOA and/or PFOS contamination of groundwater that is a current or potential source of drinking water.

To view the draft guidance and to learn how to submit comments, visit <https://www.epa.gov/pfas>.

If you would rather not receive future communications from Environmental Protection Agency, let us know by clicking [here](#).
Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460 United States

Hazardous Substance Determination

To require the Administrator of the Environmental Protection Agency to determine whether to proceed with a proposal to designate several PFAS chemicals as hazardous substances for purposes of CERCLA.

SEC. 1. DESIGNATION AS HAZARDOUS SUBSTANCES.

(1) Not later than 1 year after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall ~~designate all per- and polyfluoroalkyl substances as~~ assess the chemicals described in paragraph (2) to determine whether to proceed with a proposal to designate the chemicals as hazardous substances for purposes of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9602(a)).

(2) CHEMICALS DESCRIBED.—The chemicals referred to in paragraph (1) are perfluoroalkyl and polyfluoroalkyl substances (commonly referred to as “PFAS”), including—

(A) perfluorooctanoic acid (commonly referred to as “PFOA”) (Chemical Abstracts Service No. 335–67–1);

(B) perfluorooctanesulfonic acid (commonly referred to as “PFOS”) (Chemical Abstracts Service No. 1763–23–1);

(C) HFPO Dimer Acid (Chemical Abstracts Service No. 13252–13–6), Propanoic acid, 2,3,3,3-tetrafluoro-2-(1,1,2,2,3,3,3-heptafluoropropoxy)-;

(D) HFPO Dimer Acid Fluoride, CAS No. 2062-98-8, Propanoyl fluoride, 2,3,3,3-tetrafluoro-2-(1,1,2,2,3,3,3-heptafluoropropoxy)-

(E) HFPO Dimer Acid Ammonium Salt, CAS No. 62037-80-3, Propanoic acid, 2,3,3,3-tetrafluoro-2-(1,1,2,2,3,3,3-heptafluoropropoxy)-, ammonium salt (1:1); and,

(F) perfluorohexane sulfonic acid (commonly referred to as “PFHxS”) (Chemical Abstracts Service No. 355–46–4).”

Subject: Date Requests for Administrator's Calendar

Aaron,

Thanks for coming by today. As discussed, below are the special emphasis events that OMS would like the Administrator to participate in:

October 30 2 – 3 p.m (if there is a better date, please let us know)

National Disability Employment Awareness Month

November 5 10 – 11 a.m. or 11 – 12 noon

Veteran's Day Observance (this date is firm as we have a confirmed speaker: Lt. General Michael Linnington (Ret), the CEO of the Wounded Warrior Project)

Week of November 18 (please suggest a date and time)

American Indian/Native American Heritage Month

Also, OMS has asked whether the Administrator could make brief remarks at the Green Intern Program Orientation of November 6 – what ever time works on his schedule.

Finally, as mentioned, we are looking at the following for Holiday events:

Week of December 2 – Holiday Photos with the Administrator – we need to figure out how to block out time that week – we know we want to streamline it.

December 10 – suggested date for the Administrator's Office Holiday Party .

Thanks much ng

Nancy Grantham
Principal Deputy Associate Administrator
Environmental Protection Agency
Office of Public Affairs

Deliberative

Hi all,

Attached is a new chart showing available state PFOA drinking water values that may help demonstrate the comparison. Also, please send any replies to this email chain to my EPA email address and not my personal Gmail account that was included on the original email.

Thank you!

Taylor Hoverman
Policy Counsel to the Assistant Administrator

Deliberative

Brittany

I am attaching three documents prepared by OLEM that could be included in the briefing package. I am copying Susan as she knows more and has been involved in the enforcement actions: Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process I am copying Taylor as she will be in the office tomorrow and she was the one who pulled together the first document.

Ex. 5 - Deliberative Process

I do not think that the present examples of the charts particularly stand out but at this time I am not in a position to change them. If the Administrator would like some form or chart or illustration I am sure we could have something else quickly prepared that is more effective.

I will monitor email tomorrow as best I can and try to call in if there is a conference call.

Peter

Dave, Peter – you may have noticed we have a pre-brief with the administrator on Monday. The WH meeting has now been scheduled for Wednesday. Let me know if you have time to touch base tomorrow to make sure we have all the necessary handouts for his binder over weekend.

Thanks,
Brittany

Great, thanks, Lee. The other topic NOIA mentioned to me this morning is EPA's work with DOI on water and air quality permits and programs in the Gulf of Mexico. Pruitt spoke to NOIA in April of 2018 and I went back and found the material we gathered on this back then. I've attached it here. Do we have anything new to say on these issues? Any updates for these talkers? Thanks.

Chris,
The implementing rules for the new Vessel Incidental Discharge Act will have significant impact on a large portion of NOIA's members. They were highly involved with the legislation and have expressed interest in how EPA intends to administer the statute.

OW will get you some talking points first thing in the morning.

Regards,
Lee

Subject: Cooler Heads Coalition: invitation to event Friday and other items

Hill briefing on air quality tomorrow:

Sorry for the late notice. Life:Powered, a project of States Trust, which is an initiative of the Texas Public Policy Foundation, is holding a Capitol Hill briefing tomorrow on *Four Things No One Is Telling You About Energy: America's Clean Air*. It's from **12 noon to 1 PM in 188 Russell on Friday, 3rd May**. Here's the link to the RSVP page, which has all the details: <https://www.eventbrite.com/e/four-things-no-one-is-telling-you-about-energy-americas-clean-air-tickets-60546160195>. If you Rsvp now, they might not have a sandwich for you. But I bet they will.

H. R. 9 vote:

The House passed H. R. 9, the Climate Action Now Act, at noon today by a final vote of 231 to 190. No Democrats voted no. Three Republicans voted yes: Buchanan, Fitzpatrick, and Stefanik. The bill would put the U. S. back into the Paris climate treaty and legislate Obama's unilateral commitments to reduce greenhouse gas emissions. Here's the roll call: <http://clerk.house.gov/evs/2019/roll184.xml>.

The motion to recommit with instructions failed by 206 to 214. The instructions were that the act won't take effect until the president certifies that meeting the Paris targets won't result in job losses to China. Fourteen Democrats voted yes. One Republican voted no: Amash. Here's the roll call: <http://clerk.house.gov/evs/2019/roll183.xml>

On the Gosar amendment to clarify that the Paris climate treaty is a treaty and therefore requires Senate ratification to go into effect, the vote was 189 to 234. No Democrats voted yes and only five Republicans voted no: Buchanan, Fitzpatrick, Hollingsworth, Katko, and Stefanik. Here's the roll call: <http://clerk.house.gov/evs/2019/roll176.xml>

Reminder: the Cooler Heads Coalition will hold its May monthly strategy meeting on Monday, 6th May, beginning at 12 noon at CEI, 1310 L Street, N. W., Seventh Floor.

WASHINGTON, D.C. 20460

OFFICE OF CONGRESSIONAL
AND INTERGOVERNMENTAL RELATIONS

The Honorable Diana DeGette
Chair
Subcommittee on Oversight and Investigations
Committee on Energy and Commerce
U.S. House of Representatives
Washington, D.C. 20515

Dear Madam Chair:

On behalf of the U.S. Environmental Protection Agency, I am writing in response to your letter dated January 29, 2019, regarding Per- and Polyfluoroalkyl Substances (PFAS) and the Agency's work to address PFAS issues.

As explained in our March 7, 2019 and March 22, 2019 letters to you, the Agency continues to gather information related to your requests. Enclosed please find a third set of documentation responsive to your request. We anticipate producing additional information and documentation as they become available.

If you have further questions, you may contact me, or your staff may contact Travis Voyles in the EPA's Office of Congressional and Intergovernmental Relations at Voyles.Travis@epa.gov or (202) 564-6399.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Lyons".

Dear Mr. Chairman:

On behalf of the U.S. Environmental Protection Agency, I am writing in response to your letter dated January 29, 2019, regarding Per- and Polyfluoroalkyl Substances (PFAS) and the Agency's work to address PFAS issues.

As explained in our March 7, 2019 and March 22, 2019 letters to you, the Agency continues to gather information related to your requests. Enclosed please find a third set of documentation responsive to your request. We anticipate producing additional information and documentation as they become available.

If you have further questions, you may contact me, or your staff may contact Travis Voyles in the EPA's Office of Congressional and Intergovernmental Relations at Voyles.Travis@epa.gov or (202) 564-6399.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Lyons", written over a horizontal line.

MAR 29 2019

OFFICE OF CONGRESSIONAL
AND INTERGOVERNMENTAL RELATIONS

The Honorable Diana DeGette
Chair
Subcommittee on Oversight and Investigations
Committee on Energy and Commerce
U.S. House of Representatives
Washington, D.C. 20515

Dear Madam Chair:

On behalf of the U.S. Environmental Protection Agency, I am writing in response to the Committee's letter dated February 1, 2019, to Administrator Andrew Wheeler, in which you sought information related to the EPA's Office of Enforcement and Compliance Assurance (OECA).

To date the EPA has provided multiple responsive actions to your February 1, 2019 letter. One week after receiving the letter, on February 8, 2019, the Agency provided the Committee with a briefing by OECA Deputy Assistant Administrator Patrick Traylor for Committee staff. Deputy Assistant Administrator Traylor answered Committee staff questions for over two hours and provided documents responsive to their questions. Additionally, the EPA provided Assistant Administrator Susan Bodine to give testimony at a hearing on EPA enforcement matters on February 26, 2019, before the House Committee on Energy and Commerce Subcommittee on Oversight and Investigations. On March 15, 2019, the EPA provided additional responsive documents to your February 1, 2019 letter, including an offer for an *in camera* review of sensitive Agency documents with a simultaneous briefing by Deputy Assistant Administrator Traylor for Committee staff to provide additional context. In addition to this briefing occurring today, the EPA is providing additional responsive documents to the Committee enclosed with this response. The EPA takes Congressional oversight requests seriously and is working to provide any additional information that is responsive to your letter.

The Committee's letter contains broad inquiries related to matters that impact the EPA's enforcement program. Providing responses to these inquiries requires obtaining information across the ten Regional Offices of the EPA as well as at EPA headquarters. As such, the Agency considers the information provided as an interim response to the Committee's request for information. The Agency anticipates providing additional responsive information on a rolling basis as it becomes available.

Furthermore, the matters outlined in the Committee's letter may implicate law enforcement sensitive information contained within OECA. The Agency must take efforts to protect law enforcement sensitive information while still accommodating the Committee's oversight function. When law enforcement sensitive matters are implicated in responding to the Committee's requests regarding these matters, the Agency intends to use reasonable accommodations to satisfy the Committee's oversight request.

As the Agency stated in our March 15, 2019 response, prior to May 31, 2017, compliance and enforcement-related information requests were not uniformly reported in a centralized system. Collecting and processing historical information requests from the period of fiscal year 2017 and older would be a tremendous burden for career enforcement staff. A response to the request would require enforcement staff at headquarters and in each of the ten regions to collect what are likely to be hundreds of information requests from FY2014 through FY2017 and evaluate each one for the first time against the criteria of the subsequently withdrawn May 31, 2017 memorandum. While the Agency recognizes the Committee's interest in obtaining this information, undertaking this collection and analysis would consume thousands of hours of time that these enforcement staff would otherwise spend on enforcing the environmental laws. In light of this burden on enforcement resources, the EPA appreciates the Committee's willingness to work with the Agency. As discussed with Committee staff, the Agency is providing a sample of information requests from FY2014 through FY2017 from Regions 5 and 8. We would note that neither Region issued RCRA § 3007 information requests requiring sampling, testing, or monitoring during this time period.

As you are aware, while compliance and enforcement-related information requests have been uniformly reported in a centralized system after May 31, 2017, copies of the requests themselves are not centrally collected. Compiling the information requests responsive to the Committee's request would require career enforcement staff at headquarters and in each of the ten regions to collect the information requests from January 2017 to the present. While the Agency recognizes the Committee's interest in obtaining this information, undertaking this collection would consume significant time that enforcement staff would otherwise spend on enforcing the environmental laws. In order to accommodate the Committee's request, the Agency provided a list of information requests as an initial production in our March 15, 2019 response. As discussed with Committee staff, the Agency is providing a sample of information requests from May 31, 2017, to November 21, 2018 from Region 5. We would note that during this time period neither Region issued RCRA § 3007 information requests requiring sampling, testing, or monitoring. We would further note that Region 8 did not issue CAA § 114 requests requiring sampling, testing, or monitoring during this time period.

Please note that portions of the responsive documents contain internal deliberations and may contain attorney-client communications or attorney work product of an Executive Branch agency, the EPA, and, as such, raise a confidentiality interest. As such, we have added a header and footnote to these documents that reads "Deliberative or Privileged Document of the U.S. EPA; Disclosure Authorized Only to the House Committee on Energy and Commerce for Oversight Purposes." Through this accommodation, the EPA does not waive any confidentiality interests in these documents or similar documents in other circumstances.

The EPA respectfully requests that the Committee and staff protect the documents and the information contained in them from further dissemination. Should the Committee determine that its legislative mandate requires further distribution of this confidential information outside the Committee, we request that such need first be discussed with the EPA to help ensure the Executive Branch's confidentiality interests are protected to the fullest extent possible.

The EPA recognizes the importance of the Committee's need to obtain information necessary to perform its legitimate oversight functions and is committed to continuing to work with your staff on how best to accommodate the Committee's interests. We will continue to produce information responsive to your oversight inquiries on a rolling basis as it becomes available. If you have further questions, you may contact me, or your staff may contact Travis Voyles in the EPA's Office of Congressional and Intergovernmental Relations at Voyles.Travis@epa.gov or (202) 564-6399.

Sincerely,

A handwritten signature in black ink, appearing to read 'Troy Lyons', written in a cursive style.

Subject: RE:

- EPA has established an agency priority goal to dramatically reduce the number of areas that do not meet National Ambient Air Quality Standards (NAAQS), including reducing the number of "nonattainment" areas from 166 to 101 by 2022.

- EPA projects that nearly all areas of the country will attain the 2008 and 2015 ozone NAAQS by the early 2020s.

- EPA has recently acted to retain the NAAQS for oxides of sulfur and nitrogen. The Agency intends to finalize any necessary revisions to the ozone and particulate matter NAAQS by the end of 2020.

- EPA has determined that the Cross-State Air Pollution Rule (CSAPR), the CSAPR Update, and the CSAPR Close-out (finalized 12/6/18) fully address states' "good neighbor" obligations for the 1997 and 2008 ozone NAAQS and the 1997 and 2006 PM2.5 NAAQS. For power plants covered by this program for cross-border ozone, nitrogen oxide emissions have dropped by over 20 percent - roughly 80,000 tons - just since the 2016 ozone season., and we expect these trends to continue through the early 2020s.

Yes. Most of the specific area projections are for ozone (by 2023, we expect virtually all parts of the U.S. to have levels below both the 2008

and 2015 ozone standard) but we are projecting as part of the strategic plan goal that the number of nonattainment areas (using a 2016 baseline) will go from 166 to about 100 by 2022. Many of those are ozone, lead, and SO2 nonattainment areas.
